

Ocsam TPMDX

robot

Pre-owned Ocsam Cepak transfer system feeding the blank magazine of the canbody welder with cut blanks from the slitter. Thanks to its substantial reserve capacity for blanks, the transfer unit can compensate for short upstream or downstream production interruptions, thus guaranteeing non-stop operation of the production line. Can size is Ø127 x 163 (H) mm.

Spécifications techniques

CazProductNuméro CPN	6666
Nom	Ocsam TPMDX
Outillage	127 x 163 mm
Année de construction	2018
Forme de la boîte	round
